Step 02

Discussion Questions

Main Question

How does tourism affect the environment?

One More Step!

1. Where have you been on a tour to? Please describe three things you remember from the trip.
2. Think of a place you know that has been affected by tourism. Was it a negative or a positive effect? Why do you think so?

Step 03

Let's speak and practice!

Q1. The video you have watched is about 'the distracted mind'.
Why do you think this topic is important?

Listen

[모범답안]

It is important to know how attention works and that being distracted can be dangerous. We all know how hard it is to watch a movie when someone is constantly talking to us, or to study with the TV on. These days we use our phones for almost everything we do. We find information, talk, text and entertain ourselves with our phones. Because we are always engaged with our phones, we are often distracted and don't pay enough attention to what is happening around us. When we are relaxed and in a safe place it is fine, but when there are things that need our attention because it is important, being distracted can be dangerous. People are hit by cars while crossing the road, and drivers cause accidents because they text or talk on the phone while driving. It is better to pay attention than to pay for being distracted.
